

Remarks

This Amendment is in response to the Final Office Action dated June 22, 2007 and is due on or before September 24, 2007 with September 22, 2007 falling on a weekend.

Claims 2, 3, 9, 10, and 11 - 13 are pending.

Applicant notes with appreciation the indication that Claims 11-13 are allowed and claims 3, 9, and 10 contain allowable subject matter. The drawings were objected to for not showing the subject matter of Claim 11, lines 14-16. New Figure 3a has been added to the application. Support for this Figure is found in the original Claim 11 and the limitations thereof are included in the allowed Claim 11.

Claims 2, 3, 8, 17 and 19 were rejected in view of the Johnson et al patent. Applicant cancels claims 8, 17 and 18 without prejudice. Claim 2 has been amended to depend from allowed Claim 3 and should now be allowable.

Claims 8, 17 and 18 were objected to and applicant has made a good-faith effort to correct claim 8, now canceled; the limitations thereof and corrections thereto are included in Claims 3, 9 and 10.

As mentioned above, the drawings were objected to and a new Figure 3a has been added to the application. It is believed this Figure and reference to it in the amended specification does not add new matter and is fully supported by the originally filed application.

In view of the aforementioned, it is respectfully urged that the present application be reconsidered, the claims allowed, and the case passed to issue.

Respectfully submitted,
